Claim Rejections - 35 USC § 112

1. Claims 8-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 8-9 are indefinite because claim 1 is a product claim not a method claim. For claims 4, 15-16, the term “the exterior” lacks proper antecedent basis.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8, 12-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore (US 5,590,775). Moore discloses a Christmas tree storage and transport bag 10 comprising a nylon sheet forming into a bag by zipper and Velcro. Each open end of the bag has drawstrings adjacent thereto.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3728

5. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Moore. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the bag out of cotton, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

6. Claims 10-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moore in view of Blackburn et al. (US 4,799,520) or Official Notice. Moore discloses most of the elements of the claims, but lacks a tree stand. However, Blackburn et al. teaches a cover for a Christmas tree display on a stand. The cover is positioned over the stand. Official Notice is also taken of the conventional use of tree stand for a Christmas tree. Hence, it would have been obvious in view of Blackburn or Official Notice to provide a tree stand and cover the tree stand when the storage bag is in a partially open position.
